**Underwater icon** – This  icon represents sites that are submerged. There are no additional rules for such sites, although some cards have game text that affects underwater sites.

**Blown away Blockade Flagship** – The starfighter **Bravo Fighter** details how to blow away the Neimoidian Blockade Flagship. If blown away, the Blockade Flagship and any Flagship locations on table are placed out of play (and may not be re-deployed this game). Any cards on the Flagship (or at a Flagship site) are placed in their owner's Lost Pile.
